

## HeraBasic

### Some important features

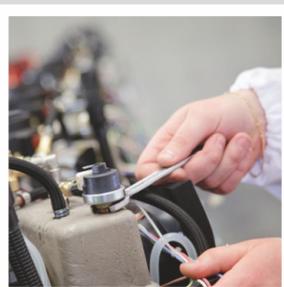

- > Shockproof and high-resistance plastics
- > Built-in rubber cord winder
- > Cooled ergonomic handle
- > Intuitive control panel with digital display
- > Dual-turbine motor
- > Excellent holding capacity of up to almost 6 litres
- > Biggest water filter in its class
- > Molecular separator

### TECHNICAL DATA

Suction: **2400 MM**  
 Motor power: **1200 WATT**  
 Dimensions: **37 X 30 X 41 CM**

Detergent tank: **1,5 L**  
 Water filter capacity: **5,5 L**  
 Detergent pump pressure: **7 BAR**

Cold washing: **YES**

The entire range is exclusively made in Italy, in full respect of EC directives, with Italian components, to ensure maximum reliability, efficiency and durability.

**Genuine Made in Italy.**

**Even richer  
and more versatile**

Powerful suction of solids  
and liquids

Air cleaning

Delicate cold washing

Instant drying

Functional and compact design

Made in Italy

**A new machine with suction and washing with water, powerful and practical for everyday cleaning. It sucks up dust, liquids and purifies the air, washes and dries in a moment.**

Its dual-turbine engine with a molecular separator always provides the highest level of suction without having to replace bags or filters. The 7-bar pump offers an injection of water and detergent useful for washing rugs, carpets and upholstery in a moment with extraordinary results. As it is small, it can be manoeuvred and transported easily and can be kept anywhere. New compact and functional design. Designed and built entirely in Italy.

washes

water,  
dries and  
drains

## AIR CLEANING CYCLE

### 1\_Suction

Unhealthy air and dust are sucked up and conveyed inside the machine.

### 2\_First filtering

Unhealthy air is subjected to a first filtering using water.

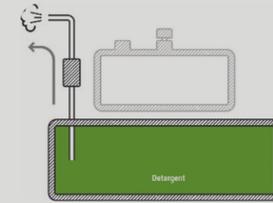

### 3\_Filtering with separator

A second filtering operation is then carried out by the exclusive "molecular separator" that manages to intercept and reject even the smallest particles.

### 4\_Output of clean air

These two natural filters expel healthy, clean and perfumed air.

## BASIC SYSTEM

### Cold washing

This function is useful for washing delicate surfaces with cold water or a special diluted detergent. A special pump delivers a powerful jet for thorough and fast cleaning.

## accessories

### supplied

Transparent nozzle

Extensions

Opening

Lance

Large transparent nozzle

Hose with rack

Heater brush

Vacuum hose

Handle with hose

Large brush with felt

Articulated horsehair brush

### on request

Extendable hose

Electric carpet cleaner

Turbo carpet cleaner

Acqua Clean

Degreaser
