

Hera Easy

Steam-vacuum cleaning

MAXIMA
ADVANCED SOLUTIONS

Hera Easy

A new machine for practical and ecological cleaning for optimum hygiene on all surfaces.

The use of water as the main element makes it a really **safe and ecological machine.**

A really ecological, easy-to-use machine with a range of accessories for all your domestic hygiene needs. If necessary, Hera Easy turns into a powerful steam iron. As it is small, it can be manoeuvred and transported easily and can be kept anywhere. New compact and functional design. Designed and built entirely in Italy.

the hygiene
for all
surfaces

Hera Easy

Its power features and compact dimensions make it an indispensable partner for all cleaning needs. Thanks to its small dimensions, it can be handled and moved easily and it can be kept anywhere.

Hera Easy is the solution you were looking for.

- Powerful suction of solids and liquids
- Air cleaning
- Steam cleaning
- Instant drying
- Professional ironing

Even richer
and more
versatile

the improved manual refill boiler

HeraEasy
MADE IN ITALY

Hera Easy's 155°C steam guarantees deep hygiene thanks to its efficient boiler.

The boiler is one of the main components of the machine, steam is created inside it.

Limescale is the boiler's main enemy, Maxima uses technology designed to help reduce the risk of clogging and malfunction.

Improved manual refilling:

When the water in the boiler is finished, by using new software, the residual pressure can be completely eliminated and the cap opened immediately without the risk of steam leaking out.

STEAM GENERATION

1. Stainless steel
2. Heater

Hera's 155°C
steam is a
guarantee of
deep hygiene

Air cleaning

HeraEasy
MADE IN ITALY

Hera Easy's special motor performs two functions: deeply sucking the dirt and filtering the outgoing air.

The exclusive molecular separator mechanically intercepts the smallest dirt particles and guarantees constant air filtration. Thanks to it, the engine will not suffer the loss of suction due to dirty filters that need to be replaced.

The aspiration of Hera Easy is always at maximum efficiency.

AIR CLEANING CYCLE

- 1 Suction**
Unhealthy air and dust are sucked up and conveyed inside the machine.
- 2 First filtering**
Unhealthy air is subjected to a first filtering using water.
- 3 Output of clean air**
A second filtering operation is then carried out by the exclusive "molecular separator" that manages to intercept and reject even the smallest particles.
- 4 Output of clean air**
These two natural filters expel healthy, clean and perfumed air.

Sucking up dirt
is not enough, it
must definitely
be trapped

optional accessories

standard accessories

HeraEasy
MADE IN ITALY

Steam lance adapter

Extensions

Tank filling bottle

Multifunction brush

Handle with hose

150-mm opening

Wiper

Kit sanitation maxi

Vaporizing turbo brush

Technical data

Suction: **2400 MM**

Motor power: **1200 WATT**

Dimensions: **37 X 30 X 41 CM**

Steam pressure: **6 BAR**

Boiler power: **1800 WATT**

Boiler volume: **1,3 L**

Refilling system: **AUTOMATIC**

Steam ready: **5 MIN**

Water tank for steam: **1,5 L**

Water filter capacity: **5,5 L**

Some important features

- > Shockproof and high-resistance plastics
- > Built-in rubber cord winder
- > Intuitive cooled ergonomic handle
- > Control panel with digital display
- > Controls and settings also on the handle
- > Dual-turbine motor
- > Excellent holding capacity of up to almost 6 litres
- > Biggest water filter in its class
- > Molecular separator
- > 6-bar steam with unlimited autonomy
- > Energy saving boiler
