

Hera EasyPlus

Steam-vacuum
cleaning

MAXIMA
ADVANCED SOLUTIONS

Hera EasyPlus

A new cleaning machine whose multiple functions ensure excellent hygiene for all surfaces.

The use of water as a main element makes it a really **safe and ecological machine.**

Due to its multiple easy-to-use functions, it can be used for various cleaning needs: from ecological with steam and suction up to its exclusive water and detergent injected washing. If necessary,

Hera Easy Plus turns into a powerful steam iron.

As it is small, it can be manoeuvred and transported easily and can be kept anywhere.

New compact and functional design.

Designed and built entirely in Italy

the hygiene
for all
surfaces

Hera EasyPlus

Its power features and compact dimensions make it an indispensable partner for all cleaning needs. Thanks to its small dimensions, it can be handled and moved easily and it can be kept anywhere.

Hera Easy Plus is the solution you were looking for.

- Powerful suction of solids and liquids
- Air cleaning
- Steam cleaning
- Delicate cold washing
- Instant drying
- Professional ironing
- Functional and compact design
- Automatic refilling
- Made in Italy

Even richer
and more
versatile

The improved manual refill boiler

HeraEasyPlus
MADE IN ITALY

Hera's 155°C steam guarantees deep hygiene thanks to its efficient boiler.

The boiler is one of the main components of the machine, steam is created inside it. Limescale is the boiler's main enemy, Maxima uses technology designed to help reduce the risk of clogging and malfunction.

STEAM GENERATION

1. Stainless steel
2. Heater

Hera's 155°C steam is a guarantee of deep hygiene

Power Jet

enriched steam

HeraEasyPlus
MADE IN ITALY

Improved manual refilling:

When the water in the boiler is finished, by using new software, the residual pressure can be completely eliminated and the cap opened immediately without the risk of steam leaking out.

Cold washing

This function is useful for washing delicate surfaces with cold water or a special diluted detergent. A special pump delivers a powerful jet for thorough and fast cleaning.

EASY PLUS SYSTEM

practical,
versatile,
multipurpose

Air cleaning

HeraEasyPlus
MADE IN ITALY

Hera Easy Plus's special motor performs two functions: deeply sucking the dirt and filtering the outgoing air.

The exclusive molecular separator mechanically intercepts the smallest dirt particles and guarantees constant air filtration. Thanks to it, the engine will not suffer the loss of suction due to dirty filters that need to be replaced.

The aspiration of Hera Easy Plus is always at maximum efficiency.

Sucking up dirt is not enough, it must definitely be trapped

AIR CLEANING CYCLE

- 1 Suction**
Unhealthy air and dust are sucked up and conveyed inside the machine.
- 2 First filtering**
Unhealthy air is subjected to a first filtering using water.
- 3 Output of clean air**
A second filtering operation is then carried out by the exclusive "molecular separator" that manages to intercept and reject even the smallest particles.
- 4 Output of clean air**
These two natural filters expel healthy, clean and perfumed air.

optional accessories

standard accessories

Technical data

Suction: **2400 MM**

Motor power: **1200 WATT**

Dimensions: **37 X 30 X 41 CM**

Steam pressure: **4,5 BAR**

Boiler power: **1800 WATT**

Boiler volume: **1,6 L**

Refilling system: **ADVANCED MANUAL**

Steam ready: **7 MIN**

Detergent tank: **1,5 L**

Water filter capacity: **5,5 L**

Cold washing: **YES**

Some important features

- > Shockproof and high-resistance plastics
- > Built-in rubber cord winder
- > Cooled ergonomic handle
- > Intuitive digital control panel
- > Dual-turbine motor
- > Excellent holding capacity of up to almost 6 litres
- > Biggest water filter in its class
- > Molecular separator
- > 4,5 bar steam
- > Energy saving boiler
