# Mobilmax

## The foldaway steam ironing station

Mobilmax is a heated ironing board with vacuum and blower that becomes a modern piece of furniture with retractable wheels. The professional board stops rising steam and odours when ironing, the formation of condensation and consequent dripping underneath the board; laundry is well ironed and dry on both sides.

Your work becomes accurate and fast: with the suction, fabrics remain attached to the work surface to prevent creases, while blowing lifts the most delicate ones, that can be ironed without pressing them, all without pedals, with convenient automatic control.

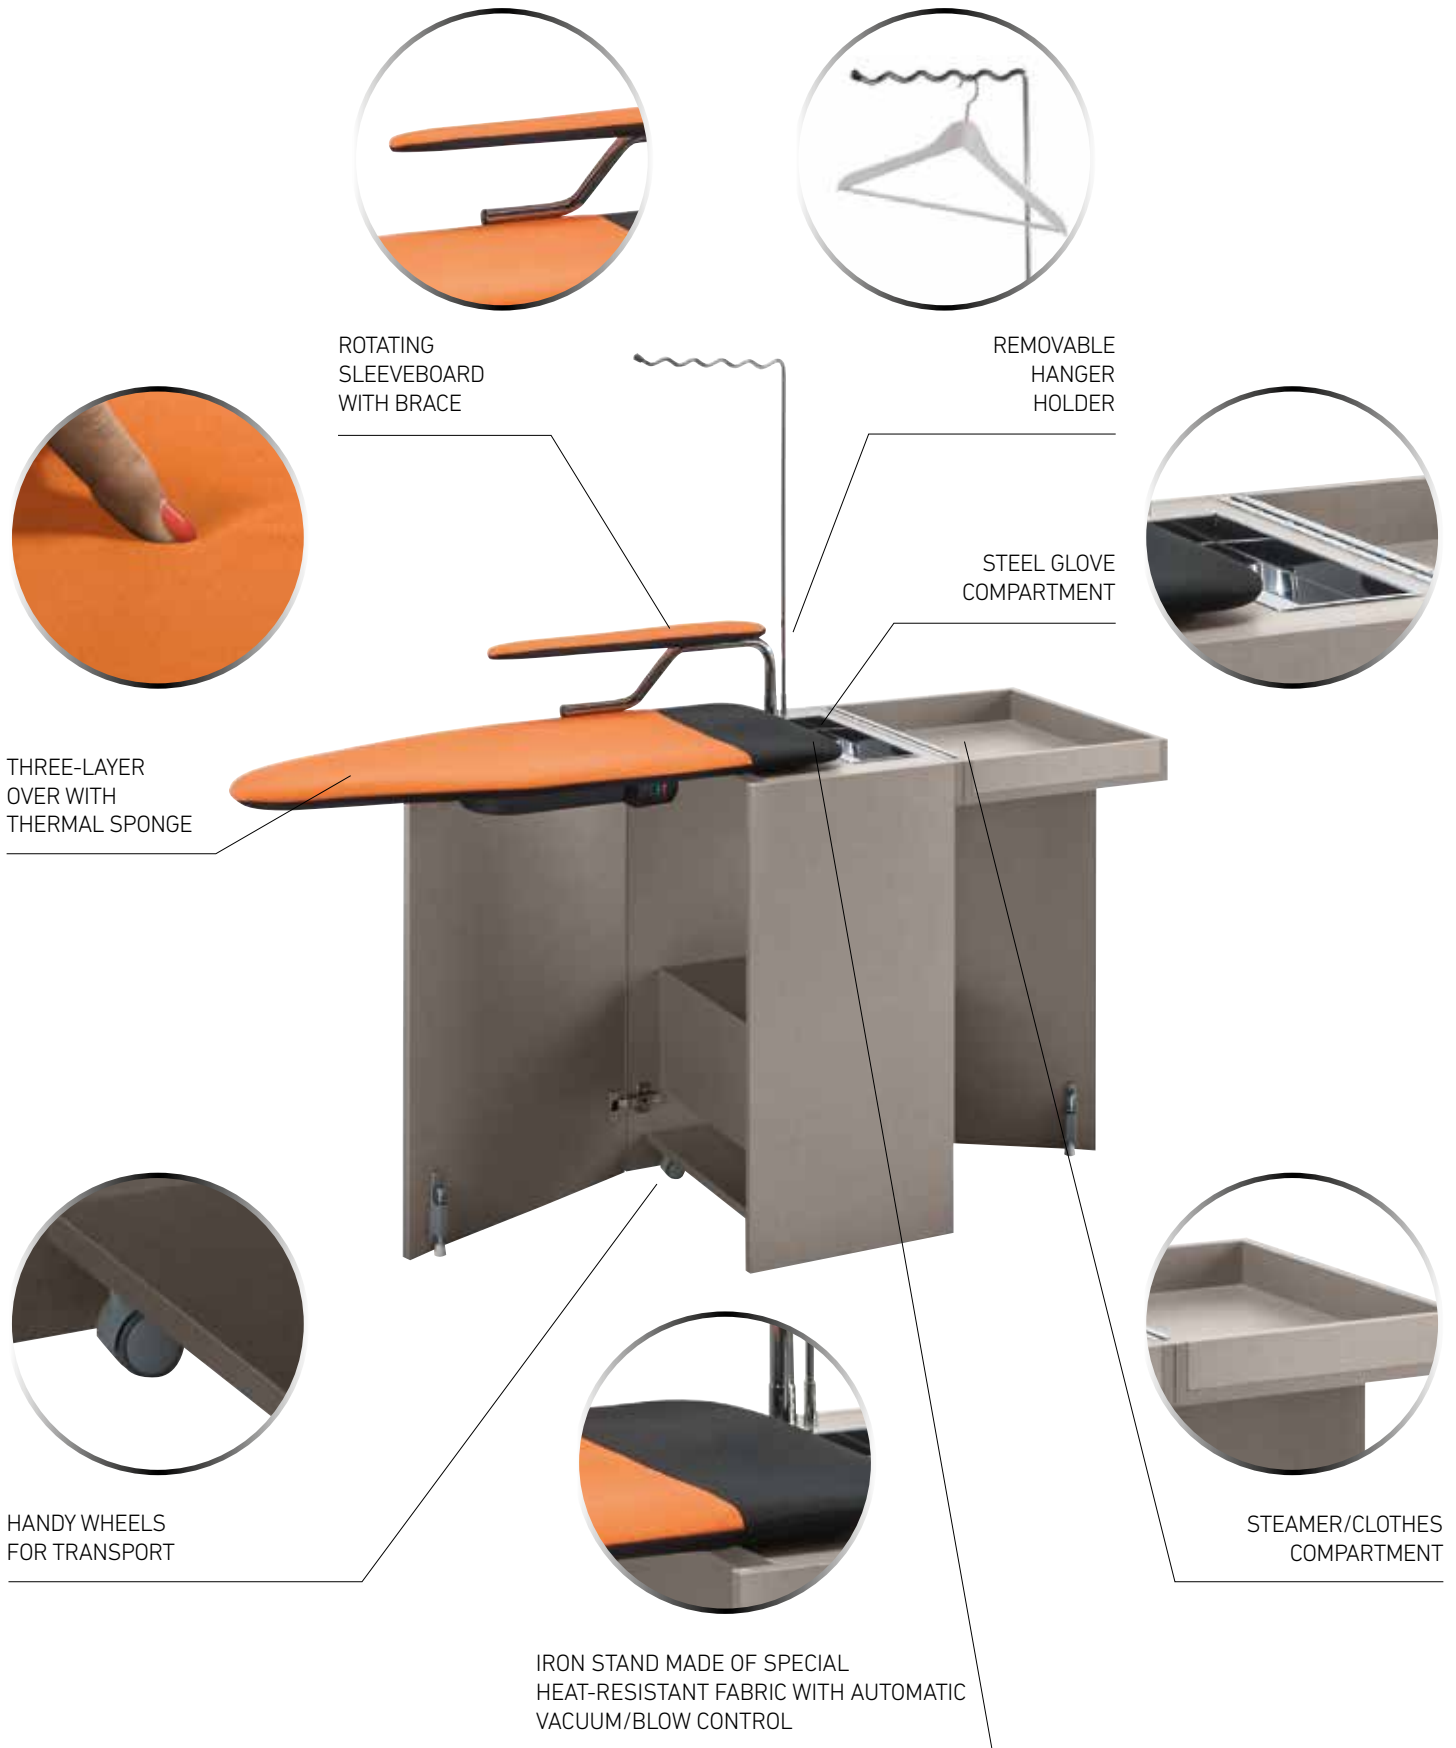

### Practical:

Easy to open and close without bending, Mobilmax can contain the iron and much more. When open, it offers a safe support for your steamer and a handy glove compartment. Its ironing board is safe and sturdy. When closed, it is easy to move thanks to its rubber wheels that do not scratch the floor.

### Italian Design

Entirely designed and made in Italy, Mobilmax has a simple and modern design; available in various essences and colours, it is easy to match with your home furniture. You can keep it in the kitchen, the lounge, the hallway and even the bedroom. Thanks to its clean lines, it perfectly adjusts to all styles and can even become a protagonist.

# Mobilmax features

# Mobilmax with built-in iron

## Optional

### Automatic recharge

A high-pressure pump injects the water directly into the boiler, always keeping it at a constant level during the use of steam. You can recharge the tank even with the machine on, without waste of time.

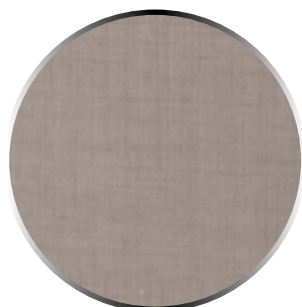

### Versatile:

You can use it together with your iron or, on request, it can be supplied complete with a professional built-in iron with an unlimited autonomy boiler. Hence, it becomes an actual ironing station, always ready to work without having to take out the iron and put it back when you're done with your ironing. A handy sleeve-board and a hanger holder complete Mobilmax and make it one of a kind.

## TECHNICAL DATA OF THE IRONING STATION

- Cabinet with a frame made of chipboard with a melamine coating
- Dimensions of the closed cabinet 55x45x94 cm
- Dimensions of the open cabinet 55x160x90 cm
- Dimensions of the ironing board 45x110 cm
- Operating temperature +5°C/ +30°C
- Safety thermistor
- Microcontrol 12 V
- Power outlet max 2000 W
- Resistance of the board 300 W
- Motor 30 W
- Max. power 330 W
- Voltage 220-240 V 50-60 Hz
- Conforming to the EC Directive EN 55014 on the suppression of radio disturbances

## TECHNICAL DATA OF THE BUILT-IN IRON

- Stainless steel frame
- Stainless steel boiler with removable resistance
- Operating temperature +5°C/ +30°C
- Safety thermistor
- Safety valve
- Boiler capacity 0,8 L
- Recharge tank capacity 0,8 L
- Operating pressure 2,8 bar
- Boiler power 1100 W
- Iron power 800 W
- Max. power 1900 W
- Voltage 220-240 V 50-60 Hz
- Conforming to the EC Directive EN 55014 on the suppression of radio disturbances

The entire range is exclusively made in Italy, in full respect of EC directives, with Italian components, to ensure maximum reliability, efficiency and durability.
