ADVANCED SOLUTIONS

Microfiber ultra-fine

CLEAN, GREEN & HOME PROFESSIONAL

The Maxima microfiber cloths are made of superfine microfibers with an asterisk-shaped structure. All the corners and slots increase the dirt collection surface considerably, making it incredibly absorbent and the dirt does not enter the fibre, so it can be easily washed. Maxima microfiber collects everything: dust, dirt, grease and bacteria; it's the perfect material to clean and sanitize thoroughly just using water.

Ultra-fine microfiber

Normal fibre

MULTI-PURPOSE CLOTH

50x40 cm - ultra-fine microfiber

The universal cloth for dusting, cleaning, degreasing, drying and polishing all surfaces. Indispensable for quick and safe cleaning and total hygiene

GLASS CLOTH

41x39 cm - ultra-fine microfiber

The specific cloth for cleaning glasses, mirrors, crystals, chrome... ideal for polishing and finishing. It leaves no marks and no traces.

GREASE CLOTH

60x45 cm - special microfiber

The essential cloth to dissolve and emulsify all types of grease: animal, vegetable or mineral. It is used wet without having to apply strong pressure when rubbing. Finish with Multi-Purpose Cloth.

EXTRA ABSORBENT CLOTH

40x40 cm - ultra-fine microfiber

The universal cloth without edging for dusting, washing, drying all surfaces. With great absorbent capacity. Extremely soft and practical.

MICROFIBER PAD FOR GLASS

26x8 cm - ultra-fine microfiber

The ultra-microfibre pad for washing and polishing glass, mirrors and chrome surfaces. Equipped with velcro support, to be used with the Speedypad. Pack of two pieces.

SPEEDYPAD

26x8 cm - with velcro base

Handle with velcro base for microfiber pads. Allows you to clean flat surfaces quickly and easily.

THE ADVANTAGES OF THE MAXIMA MICROFIBER

- You save money because you no longer need to continuously buy expensive detergents.
- You save time because cleaning with microfibers is extremely fast and effective.
- You clean with less effort, and there's no need to rub vigorously.

- There are no harmful substances. Breathing when used is safe. Maxima does not use chemical detergents thus infections or allergies to the hands or the respiratory system are avoided.
- It's environmentally friendly. Using Maxima microfiber helps to improve the world in which we live.
