

Intelligent steam
cleaning

MAXIMA
ADVANCED SOLUTIONS

Plenty of power when you need it

Digital Vapor is equipped with a powerful boiler that develops 7 bars of dry steam, which guarantees a high operating temperature for excellent hygiene.

In order to reduce water and energy wastage, we have equipped it, in addition to the three electronic wattages, with an additional control to further reduce the amount of steam output and clean for longer with less residue.

UNLIMITED STEAM AUTONOMY
thanks to automatic recharging

HYDROJET
for specific cleaning or rinsing

LIMESTONE DRAIN
practical maintenance system

ADDITIONAL STEAM REGULATION

- Drier and cleaner surfaces
- Energy saving
- Water saving

ELECTRONIC RECOGNITION OF ACCESSORIES

- Practical
- Safe
- Fast

BRUSHED STAINLESS STEEL BODYWORK

- No fingerprints
- Easy to clean
- Robust and durable

ACCESSORIES INCLUDED

HANDLE WITH HOSE

EXTENSIONS

FLOOR BRUSH

TRIANGULAR BRUSH

SQUEEGEE

STEAM LANCE

BRUSHES

PADS

SET OF MICROFIBRE CLOTHS

OPTIONAL ACCESSORIES

IRON

DROP-SHAPED BRUSH

ELONGATED BRUSH

STEEL BRUSH

SPRAY LANCE WITH TANK

STEAM MOP BASE

MOP IN ULTRA-MICROFIBRE WITH VELCRO

STEAM SUCTION CUP

ESSENCE VAPORISER

TECHNICAL DATA SHEET

Size (cm) 45 x 34 x 31 h - Weight 7 Kg

Stainless steel bodywork

Stainless steel boiler 2 L - 2200 Watt automatic refill

3 electronic steam settings + 1 manual setting

Maximum operating pressure 7 bar

Hydrojet

Steam ready time 5 minutes

SAFETY

Tank and boiler level circuit breaker

Thermostat

Thermofuse

Pressure switch

Safety valve 9 bar

Low-voltage controls

IPX4 degree of protection
